

Superintendent Summer Math Fluency Fun

All students should be practicing their math facts during the summer. This

will help them to remain fluent and ready for the coming school year. Please make a goal to practice your math facts for at least 10 minutes a day- 4 days a week for 10 weeks this summer.

40 days of 10 minute practice= almost 7 hours of fluency fun=
SUCCESS

Cross off one box every day you spend 10 minutes reviewing math facts. If you need ideas, try some (or all) of the fun suggestions on the back of this paper.
